PROJECT & OTHER EXPERIENCES

AttendSmart (Personal Project)   JUNE 2025 – PRESENT
Full Stack Web Development

- Designed and developed the frontend using HTML, CSS, and JavaScript with responsive layouts.
- Implemented backend APIs with Node.js and Express for attendance tracking.
- Created a MongoDB schema for storing student, teacher, and attendance data.
- Integrated frontend and backend for seamless user interaction.
- Used Git/GitHub for version control and collaborated on project workflow.

Personal Portfolio   JAN 12, 2025 - JAN 15, 2025
FrontEnd Development

- Designed and developed a personal portfolio website to showcase projects and skills.
- Built using HTML, CSS, JavaScript, and responsive design principles.
- Added sections for About Me, Projects, Skills, and Contact information.
- Integrated resume download and external project links for recruiters.
