ABOUT ME

Computer Science graduate with practical experience in full-stack web development using JavaScript, Node.js, Express.js, and MongoDB. Built and deployed real-world projects, including an AI-powered attendance management platform, with a strong focus on clean code, problem-solving, and user experience. Seeking an entry-level software development role where I can contribute, learn, and grow.

EDUCATION

Bachelor of Computer Science and Engineering

2022 - 2026

Academy of Technology

CGPA: 6.85%

Kanchrapara English Medium School

2021 - 2022

Council for the Indian School Certificate Examination (CISCE)

- Majors in PCM & Computer Science.

PROFESSIONAL EXPERIENCE

AttendSmart

June 2025 - June 2026

Personal, final Year Project

- Led a 5-member team in designing and developing an attendance management system.
- AttendSmart is an attendance management system that automates attendance tracking and management through a web-based platform, reducing manual effort and improving the efficiency of attendance-related workflows.
- Designed the system architecture and implemented core features for automated attendance tracking and management.
- Developed a web-based interface focused on usability, accessibility, and efficient attendance workflows.
- Coordinated project development, task distribution, integration, and final presentation.
